News Notes

SUBSCRIBE TO THE RECORDER.

Mrs. Rhoda May is here visiting with her son S. I. May and family.

H. A. Jones was in Cardston Sunday for the funeral of I. M. Coombs.

Karl Williams who is teaching at Welling, was in Raymond Thursday evening.

David F. Fawns was a Cardston visitor on Sunday and was a speaker at the funeral of I. M. Coombs.

Mr. and Mrs. S. I. May and children were in Cardston over the week-end returning on Monday evening.

Mr. and Mrs. C. H. Elder were in Spokane visiting relatives over the week-end.

Born to Mr. and Mrs. Percy Poulsen in Magrath, a girl on Friday, Aug. 29. Mother and babe are doing nicely and "Percy" is all smiles.

The enrollment at the Public School is large this year, the beginners class being much larger than was anticipated.

Lou King was in Waterton Park over the week-end where King's Canadians were playing for the closing dance in the Big Pavilion there.

The dance in the New Second Ward Recreation Hall Monday evening was not very well attended, due to short notice and people not knowing of it.

Threatening skies on Saturday with rain and a cold wind on Sunday were harbingers of snow. However it cleared off Sunday night without frost, and Labor Day was warm and pleasant.

Palmer and Larsen are building a miniature golf course on the ground adjoining the Pool Hall. The popular pastime is growing and "Wif" says there will be hazards enough on the course to make it interesting for you.

The 16 month old child of Mr. and Mrs. S.B. Williams died very suddenly Thursday about noon. It appeared to be choking and all efforts to relieve it were unavailing. Funeral services are being held at 2 p.m. today in the Second Ward Chapel.

"Aunt Lucia" will be the attraction at the Opera House this week-end and nearly everyone is going. The cast is the biggest of anything ever put on locally.

Mrs. John Hill announces the recent marriage of her second daughter, Ella to Mr. Casey Ralph of Raymond. The marriage took place in Lethbridge last Saturday afternoon. They will make their home in Raymond.—Lethbridge Herald.

105 students are enrolled in the High School at present. This looks very encouraging for the winter's enrollment as a large number always come in after the harvest and threshing.

Mrs. Fannie Litchfield was in Cardston over the week-end attending the funeral services of her father, I. M. Coombs, who passed away last Friday after long period of illness and suffering.

Owing to popular demands the Capitol Theatre wishes to announce that they are having a return engagement of "The Virginian" which is playing next Wednesday night and "Noah's Ark" which is playing next Thursday night. Both performances will be shown at Bargain Prices—10-25c.

A farewell party was held Tuesday evening in honor of Miss Velma Nalder who is leaving soon to attend Normal at Calgary. It was a hobo party and a very enjoyable time is reported. Those present were:—Mrs. Jennie Vanee, Mrs. Melba Pickett, Mrs. Verona Nalder, Mrs. Helen Sabey, Mrs. Emma Burr, Mrs. Eulalia Nalder, Misses Emma and Nellie Hicken, Orpha Vanee and Marie O'Brien and the guest of honor.

MARGARET SNOW BURIED THURSDAY

Little Margaret, 28 months old girl of Mr. and Mrs. Golden Snow passed away Tuesday evening at the Lethbridge Hospital, a victim of what was pronounced double pneumonia and whooping cough.

The funeral services were held on Thursday forenoon at the home of the grandparents, Mr. and Mrs. O. H. Snow with Bishop Walker of the 2nd Ward in charge, and a large number of sympathetic friends and relatives in attendance.

The first song was a quartette, "The Deepening Trials" sung by C. B. and Milton Strong, Jas. H. Walker and John F. Salmon. "Unanswered Yet" was sung by Bishop Walker and C.B. Strong and "Oh My Father" was the closing song. L. L. Palmer and David F. Fawns offered the opening and closing prayers.

Bishop Walker and John H. Blackmore were the speakers, both of whom offered words of comfort and consolation to the bereaved parents and said that those who had not part with a baby could not know the sorrow and heartache that it brought.

Interment was made in the local cemetery, a large cortege following the remains there.

The sympathy of the entire community goes out to the parents in their hour of sorrow.

INDIAN SUMMER

Earth's at her loveliest,
Fold upon fold,
Distances gleaming
Purple and gold.

Aspers are piling,
Fields rapture know,
Smoke wafts are drifting,
Maples aglow,

Ah would I linger
By purpling vine
There in the meadow
Blue berries shine

Deep is the tenderness
That slowly turns
Green into golden
Heart fires that burn.

Dear is the knowing
All things though wild
Join one glad chorus
By love beguiled.

Hillside's are changing
Weaving bright dreams
Vision ethereal
Opalescent gleams.

Joyous fulfillment
Crown all the days
Indian summer
Parling of ways!

Helen K. Orgill

Flower and Vegetable Show Great Success

The Flower and Vegetable Show held on Friday last in the King Motors Show Room was very successful and brought to light a wealth of beautiful blooms, plants and splendid vegetables. The exhibits of the A. C. and of Mr. Perks showed a good variety, and there were flowers and plants in the show of varieties that hardly anyone knew were grown here. The show was worth coming miles to see.

This is only the beginning and the Society hopes in future years to make the Annual Show one of the big events of the year.

The Horticultural Society wish to heartily thank all who contributed to making the Flower and Vegetable Show the success that it was.

Following are the Prize winners:

VEGETABLES

Mrs. Knight 1st, Mrs. Webster 2nd, Childs' Mary Peterson 1st, Alice Card 2nd.

J. F. Jones Tomatoes
Pamela Charlton, Pumpkin 1st,
Harold King, Squash 1st
Guy Christian 2nd

Ross Mendenhall, 1st in Vegetable Marrow, Potatoes and 2nd in Carrots.

FLOWERS

Sweet Peas Mrs. Knight, Kate Card, and Charlotte Knight.
Asters Mrs. Knight, Kate Card and Fannie Litchfield.

Stocks—Charlotte Knight and Kate Card.

Danias—Kate Card, M. S. Snow and Mrs. Knight.

Gladioli—Mrs. Snow, Kate Card and Mrs. T. Allen.

Petunias—Mrs. Knight, Mrs. Snow and Kate Card.

Marigold African—Mrs. I. B. Roberts, Mrs. Knight and Mrs. Webster.

Marigold Calendula—Mrs. T. Allen, Mrs. Snow and Winnie Barrett.

Marigold French—Mrs. Snow 1st, Clarkla—Kate Card 1st.

Hollyhocks—Mrs. Knight and Harold Card.

Pansies—Mrs. Knight 2nd, Zinnia—Mrs. I. B. Roberts, A. W. Kirkham and Amy Allen.

Larkspur—Mrs. Knight, Mrs. Webster and A. W. Kirkham.

Mixed Boquet—Mrs. Snow, Mrs. Webster and Amy Allen.

Foliage Plant—Charlotte Knight 1st.

California Poppy—Mrs. Knight 2nd and Mrs. Snow 3rd.

Child's Mixed Boquet—Alice Card, Doris Smith and Mary Knight.

SPECIAL PRIZES

Linum—Mrs. Webster.
Phlox Drummondii—Fannie Litchfield.

Phlox Perennial—Mrs. Knight 1st and Mary Knight 2nd.

Rose—Mrs. Snow.
Delphinium—Mrs. Knight.

Veronica—Mrs. I. B. Roberts.
African Daisy—Mary Knight.

Petunia—Charlotte Knight.
Dianthus—Fannie Litchfield.

Salpiglossis—Mrs. Burrows.
Snap Dragon—Mrs. Knight.

Nasturtium—Mrs. Harry Johnson.
Shirley Poppy—Mrs. Snow.

Cynoglossum—Kate Card 2nd.
Scabiosa—A. W. Kirkham.

Hellebrysum—A. W. Kirkham 2nd.
Acocinium—A. W. Kirkham 3rd.

Dahlia—Mrs. M. T. King.
Pinks—Mrs. Fannie Litchfield.

Cosmos—Mrs. T. Allen.

Mrs. Walton Passes

The grim reaper, called for the third time this week in Raymond, when on Thursday, just after 4 p.m. Mrs. Chas. H. Walton passed away following a prolonged illness. She had an attack of flu, then typhoid set in and this was followed by a series of complications which refused to yield to all that human skill and loving hands could do. She was a woman of 40 years and was highly respected by all who knew her.

Funeral services will be held at 3 p.m. Sunday in the Stake House.

The sorrowing husband and family have the sympathy of the entire Raymond and Welling district in their sad loss of wife and mother.

WATER SUPPLY, HERE PURE

Reports have been received from the Provincial Laboratory on the samples of water sent in for analysis.

Both samples of town water, one from the spring reservoir and one from a tap, were found to be pure and not contaminated.

The samples from the Swimming Pool and the Canal, were both found to contain enough bacteria to be dangerous.

The sample of ice was not conclusive one way or the other and another sample was asked for.

Judging by these analyses, if Raymond citizens use no canal water for drinking or any culinary purposes, we should be free from any sickness or disease arising from water supply.

IMPROVING OUR MEAT PRODUCTS

There is a moral in the following joke culled from a farm journal the other day:

"Isn't industry wonderful? The packers are now able to utilize every part of a pig."

"Even the squeal?"

"Oh the squeal is left for the consumer."

And too often that is the case. The squeal is left to the consumer. But there would be no squeal from the consumer if he was given good, government graded meat in exchange for his hard-earned money. He would be satisfied and more meat would be consumed in Canada.

And more meat consumed in Canada means a development of our home market which is the best market always. We sat in at a meeting of livestock men last week when this very question was discussed. They were producers of mutton and lamb and were bawling the inferior mutton flooding the market, but parading as a first class product. They realized the futility of urging the consumption of more mutton and lamb when the consumer was unable to purchase the prime stuff. Often he got frozen mutton from Australia. This because here is no grading and labelling of our meats.

This step must be taken if Canada is to establish and maintain standards in meat production. It is a national problem and should be tackled in a national way. A localized effort will not do. Much good work is being done in Southern Alberta toward the production of high class beef, pork and lamb but it must be supplemented with government inspection. More and more this is being demanded by a public becoming better informed on the subject of meats and their selection.

So if the "squeal" is to be removed from the consumers of our meats it will be accomplished only by giving him a product that makes him hungry for more, not disgusted with meat products.—Lethbridge Herald.

CROP REPORT

(Issued by the Bank of Montreal)
"GENERAL. Favorable weather in the Prairie Provinces has permitted rapid progress in cutting, although there have been some delays on account of rain and some severe hail losses in sections of Alberta. Wheat yields generally have so far been some what better than were expected. Quebec—warm, dry weather is needed for harvesting operations. In Ontario recent rains have benefited pasture and corn, roots, tobacco and fruit crops. In the Maritime Provinces weather conditions are satisfactory except in Nova Scotia, where rain is still needed. In British Columbia reports from the interior are good; owing to recent rains, while in the Fraser Valley and on Vancouver Island rain is needed for roots and pasture. Details follow:

PRAIRIE PROVINCES
Alberta. Northeastern Area. Harvesting is well advanced despite interruptions by heavy rains, regional hail storms have done serious damage. Wheat yields are 8 to 25 bushels, grading 1 to 3 Northern. Southeastern Area. Fifty per cent of cutting is completed, with average yield 10 bushels, grading 1 to 2 Northern. Western Area. Harvesting is well advanced, estimated yields run from 4 to 25 bushels. Serious damage by hail, while not widespread, has been reported. An unusually heavy sugar beet yield is expected. Saskatchewan. Northern Area. Harvesting is well advanced, cutting is 65 per cent completed and threshing will be general by the end of the month. Early threshing returns indicate yields on breaking and summer fallow of 15 to 25 bushels and on stubble of 8 to 12 bushels grading 1 to 4 Northern. Southern Area. Cutting is 80 per cent completed, wheat yield is reported varying from 5 to 10 bushels grading 2 and 3. Manitoba. Cutting of wheat is practically finished, that of other grains with the exception of flax, is nearing completion. Threshing of wheat is general. Yields vary greatly owing to rust damage. It is impossible to form an accurate estimate now, but present indications are for an average of 15 to 20 bushels grading No. 3.

DID YOU EVER STOP TO THINK

JAMES THOMSON, PUBLISHER OF THE NEW ORLEANS ITEM AND MORNING TRIBUNE, SAYS:

"When in the course of his campaign President Hoover announced as a part of his platform his desire to work for the abolition of poverty in the United States, he struck on a fundamental. We should all thank God that there are few people in this great country who are in the condition of abject poverty which characterized the condition of millions in other ages, and which still characterizes the conditions of millions in many nations throughout the world.

"As a people, I presume that we are somewhat more industrious than are the average people throughout the world, but we differ from the people of many nations in that we have used organization, have adopted and invented machinery and have developed transportation and communication in a way that other people have not done. Thus we produce more food with one human unit of effort than to other people, and we produce more manufactured goods with one human unit of effort than do other people, and we have constantly attempted to develop our transportation systems for the distribution of food and manufactured products. We are continuing to work out economies in production and distribution and we should do this.

"In the meantime, our business men will do well to aid all sane and sound movements which seek to provide employment for people during transition periods. Every invention and every economy tends to work some upset which is to the disadvantage of some individuals. Today America will do well, in my opinion, to concentrate more intensely on public works.

"We have the surplus wealth necessary to put the United States in a position to serve its people at home and to serve the world. We need more and better highways for automobiles and motor cars. We need to speed up the carrying out of the great flood control program authorized by Congress. We need to push to early completion the Mississippi Valley water way system, and this work we should do with the idea of ultimately benefiting, not hurting, the railroads and other transportation systems. We need to build a Nicaragua canal to supplement this interior system of waterways and to put the West coast 600 miles nearer the East coast and the Gulf coast.

"LAST YEAR'S UPSET IN THE STOCK MARKET WAS UNFORTUNATE FOR A GREAT MANY INDIVIDUALS. IT HAD TO COME IN ORDER THAT THE NATION MIGHT TURN ITS MIND FROM GAMBLING TO SOUND CONSTRUCTIVE ENTERPRISE.

Considerable grading has already been done on the Cardston—Lethbridge road. The bridge at Spring Coulee is just about ready for opening.

DON'T GET FOOLED AND SELL SHORT ON DAIRY COWS

The low price of butterfat at the present time has caused a drop in the price of good milk cows, says the Okanagan Cream Collector. A good cow cannot be developed in a day, and those who contemplate staying with dairying now have a wonderful opportunity to pick up first class dairy stock.

Do not make the mistake of selling good cows which you have developed over a number of years, when the market is at its worst, and then have to buy them back again when the market is high.

When a manufacturer fails to make a profit in an off season, he does not close down his plant. He effects every economy in operation he possibly can and keeps going until the tide turns.

Neither should the farmer jump out of dairy cows or hogs or poultry during a temporary lull. He is out of luck when the good times begin to come back on the turn of the tide. The "in and out" seldom makes any money.—Market Examiner.

TORONTO'S FINE SKYLINE.

This unique close-up of Toronto's waterfront gives a vivid idea of the extraordinary growth of the city's downtown area since early in 1923. Centre of the picture is the Royal York Hotel, largest hotel in the British Empire; left is the Star office; and right the fine structure of the Bank of Commerce.

THE FLOWER SHOW

A great deal of praise and credit is due the one who sponsored and put on the Flower and Vegetable Show last week. It was a revelation to all who visited the exhibition to see the almost endless varieties of the tables. Some varieties that hardly anyone knew were growing or could be grown here until they were seen at the show.

The exhibits of the School of Agriculture, under the direction of Mr. Gilbert, and the table of Mr. Perks though not judged, were very educational and demonstrated what every one could accomplish in the Horticultural line if they studied local conditions and applied themselves a little more wholeheartedly to the cultural side of it. Not that we think everyone should try and grow all the varieties that were shown, but that we try and grow a little better than which we do grow.

We hope that next year, the Horticultural Society will be able to have a better exhibit than this year and that eventually we may have an agricultural fair, similar to those held in nearby towns.

We know these things represent a deal of work for a great many people, and not always the most pleasant work either; and that they are not always a profitable venture, and yet there is a value in them that cannot be measured in dollars and cents. Because of their educational value and the good they do in fostering better farming and better livestock, they are justified and are worth all they cost in work and trouble.

Notice

TO ALL INTERESTED PARTIES.

The following Streets and Lanes are to be sold to purchasers having adjoining lands, and those owning property abutting on any of the said Streets or Lanes are hereby notified that they will have the first chance to purchase such Streets and Lanes, and should any such parties fail to make arrangements for such purchase, then any of the remaining lanes will be sold at Public Auction, subject to a Reserve Bid fixed by the Council, on Sept. 20th, A.D. 1930, at the Town hall, at the Hour of 2 p.m.

SUPPORT THE WHEAT POOL

The Alberta Wheat Pool, along with the Pools of the two other prairie provinces, is making an appeal to its members to give the organization full-hearted support during these times of stress. The Pools are being put through a test which requires all the courage, loyalty and intelligence of Pool farmers to withstand. With the co-operation of the members and of every legitimate business interest in the country, there is every reason to believe the darkest hour in the Pools' brief history will be followed by the dawn of renewed prosperity and greater co-operative stabilization.

Many rumors have been circulated that members of the Wheat Pool will seek to evade their contracts this fall but there is no actual evidence that the loyalty of the great mass of the members to their own organization has been impaired to any great extent. Far-thinking people in all walks of life realize that strengthening and developing of the Wheat Pool movement will best serve the industry of agriculture in Western Canada. Nothing can be gained by turning back.

Alberta Wheat Pool directors have announced that all members will be required to live up to their contracts and deliver their wheat to the Pool. There exists no alternative as the contracts are between the members and not as between the head office and the membership. This contract is a solemn obligation and has been proven legally water tight in the courts, but it is not alone the legality of the contract upon which the Wheat Pool rests its case. It is upon the loyalty and determination of the responsible and far-seeing wheat growers who are members of this organization.

It is generally recognized that the price of wheat is now well below the cost of production. The initial payment is low but the financial stability of the Pool would be imperiled if the amount were fixed at any higher figure. The ultimate welfare of the members makes it necessary that no steps be taken to endanger the safety of their organization.

FASCINATING LINKS

Ottawa, August 29: (Special to the Recorder). A picture which has become famous and of great value is the one of the beavers making their dams by striving to turn the course of the Niagara Fall and form a lake. Very few people know that the original drawing was made in 1700 by Herman Moll who had drawn a map of the New England States, and Newfoundland, and the picture accompanies it. A copy may be seen in the map room of the Dominion Archives.

The inscription reads: "A view of y industry of y beavers of Canada in making a dam to stop y course of a rivulet (Niagara Falls), in order to form a great lake about which they build their habitations. They fell large trees with their teeth in such a manner as to make them come across y river to lay y foundation for y dam. They make mortar work up and finish y whole with great order and wonderful dexterity. The beavers have two doors to their houses, 1 to the water and one to the land side."

The map and picture are dedicated to Hon. Walter Duggan, Esq., constitutional captain general and chief governor of all y Leeward Islands in America, by her late Majesty Queen Anne, in y year 1711.

CANADA IS VITALLY CONCERNED IN EMPIRE ECONOMIC CONFERENCE

Ottawa, August 29; (Special to the Recorder) —The most important economic conference in the history of the British Empire is scheduled to take place in London during October and November.

The exact date of its commencement will be announced as soon as Premier Bennett can indicate with some certainty the time of concluding the special session of the Canadian House.

An important, if not complete revision of the attitude of the United Kingdom towards tariffs is embodied in the proposals to be laid before the conference and the success or failure in securing acceptance of these proposals lies, by common consent, mainly in the ability of Canada's new prime minister to sell his idea to the people of the Mother country.

Success, or failure, in the endeavor is of the first importance to Canada and to other sections of the Empire, as well as to Britain. Success means that through the working out of a system of mutually beneficial preferences the British market for wheat and dairy and food products will be retained for Empire products, while overseas dominions will give to British manufacturers their markets for such goods as must be imported.

A century-old aversion in Britain to protective tariffs—particularly on foodstuffs—is the barrier which Mr. Bennett must break down to achieve his objective. There are indications that economic conditions are working in his interest; that the feeling is growing that cheap food is dear if there is no money to buy it.

Canada's offer is the promise to open the Canadian market to British industry—in non-competitive fields—on a basis which will stimulate industrial prosperity there, in return for preferential treatment by Britain for Canada's grain and other agricultural products.

The effort to sell the idea to the Britisher will be followed with the keenest interest by the farming population of the Dominion. Unless it succeeds the Canadian farmer will, within a very few years be subjected to much more pressing competition from the 28-cent-per-day labor of Soviet Russia, where scientific farming methods are only now making their influence felt in production and where an area greater than that available in Canada awaits the plow.

Information reaching Canada indicates that Mr. Bennett's task is not as hopeless as it might have been even a year ago. Free trade in Britain has always boasted kindred advocates in labor, and, strangely enough, in the great financial interests. President Tom Moore of the Canadian Trades and Labor Congress recently returned from Europe to announce that in Britain he found among labor a decided trend in favor of protection. Almost simultaneously a conference of the foremost British bankers went on record as to the futility of Britain sticking to free trade while the rest of the world piled up tariff barriers.

Those influences may provide an opening for the thin end of the Bennett wedge. In any event the conference is fraught with the greatest significance to agricultural Canada.

Mrs. Julia E. Asplund wishes to announce that she will give lessons in Dramatic Art and Folk Dancing commencing immediately. Either private lessons or classes can be arranged.

APARTMENT—Available Sept 15th 2 comfortable rooms furnished, centrally located. Apply recorder office.

WANTED—2 or 3 weaner pigs, 15 or 20 good White Leghorn or B. Rock pullets. Apply Recorder office.

FOR SALE—Set of "The New Teachers and Pupils Cyclopedia" 8 volumes for \$15.00. Apply Recorder Office. 185.

The Eternal Akbi—A fairy story pageant was held here recently, and it is understood that many married men attended in the hope of picking up a substitute for the well-known. "I was detained at the office story."—Rosetown Eagle.

Insurance—In view of the fact that it is now fashionable to insure any part of the body essential to one's profession, it is significant that so far no politician has done anything about his brain.—Morden Times.

Here and There

(595)

A spectacular high line trail ride about 7,000 feet above sea level from Banff to Lake Louise has just been inspected and found feasible by J. Murray Gibbon and Jim Brewster. It is 27 miles west of Banff over timber line to a ridge looking down on the little known glacier-fed Taylor Lake and following the 7,000-foot contour to the consolation lake trail leading to Muriel Lake. It commands magnificent views of the glacial country north of the Canadian Pacific railway west as far as the Bow Lakes and south to Mt. Assiniboine. It is 60 miles long and will probably be used for the annual official camping trip of the Trail Riders of the Canadian Rockies next year.

"I do not believe that the talking films will ever take the place of the legitimate stage. . . . People still appear to be building ordinary theatres," said Lady Diana Manners, famous English society beauty and equally famous as the heroine of "The Miracle" during its New York and Boston productions, who arrived at the Windsor street station, Montreal, recently on her first visit to Canada.

The Quebec Festival of French-Canadian Folk Lore and Handicrafts at which hundreds of artists born and bred on the soil of Quebec province, and well-known artists from far and wide rival one another in recovering the spirit of Old France, and old New France and the age-old culture of the Galle race, will be held this year October 16-18, according to an announcement made by the Canadian Pacific Railway, organizers of the Festival.

Travelling in two Canadian Pacific special trains, about 250 of the most eminent figures in the British medical world left Montreal for Winnipeg to attend the first convention of the British Medical Association held in Winnipeg. They were preceded by a group of 60 members of the British Tuberculosis Association, who attended a convention of tuberculosis specialists at Ninette, Man. before going to Winnipeg.

"In view of the fact that this is the last year in which Canada has a seat on the Council of the League of Nations, I could not resist the request made to me by the Prime Minister to represent the Dominion at Geneva," said Sir Robert Laird Borden, former Prime Minister of Canada, as he sailed for Europe recently aboard the Empress of Scotland.

Every activity of the Canadian Pacific Railway was stressed this year at the National Exhibition at Toronto, which was opened formally by E. W. Beatty, chairman and president of the road. An outstanding feature of the company's exhibit was the model of the new 42,500 ton Empress of Britain, greatest inter-lake passenger vessel, launched by the Prince of Wales last June and to be in service between Quebec and Great Britain next year.

More than \$100,000,000 will be spent in each of the next three years on power production now under development in Canada. Although there are other plans for important building projects none will have a more intimate bearing on the industrial development of Canada than those now contemplated by the power industry.

THE SCHOOL BELL RINGS

Youth is on the march again back to school. The world and his wife smile kindly at the schoolboy with his satchel and shining morning face, and not that in these happy days of today, they no longer "creep like snails unwilling to school." Why in deed should they, when our schools are such delightful places, and learn is made so attractive. The day of Schoolmaster Squeers is over and gone with, and in his stead we have the modern teacher who has studied all the science and art of education from the way to teach the alphabet to the latest development in the new intelligence tests.

On one thing teachers and parents are in agreement, and that is that the physical condition of the pupil must be 100 per cent efficient, if the best work is to be done at school. Sick and ailing children make poor scholars, besides being a positive menace to the rest of the class. School inspection is of the prime importance and the wise mother welcomes the sight of the school nurse even though it means that Johnnie must have his tonsil removed when he Clinic travels that way, or Mary has to wear glasses.

We cannot stress too much the vital importance of health knowledge in the house, and in this new Canada of the far hinterlands it is frequently the children from the little schools who bring home to their parents the newer teachings of Junior Red Cross. This gospel is one of KEEPING WELL and FIT by attention to the rules of health. Many instances are known of girls and boys giving lessons to their homes in the art of personal hygiene, for it is in he doing that health comes, and knowledge is only of value as it is applied. It is useless to teach health rules at school unless there is an active co-operation at home. Let every parent insist on a Junior Red Cross group in the school, thereby assuring a valuable education in health, citizenship and service.

FASCINATING LINKS

Ottawa, Sept. 3rd. (Special to the Recorder)—Original letters of the United Empire Loyalists and the banner of the Nova Scotia Loyalists has recently been acquired by the Dominion Archives and it is a distinct asset to the splendid collection which they have of the early life of the pioneers of Canada.

The letters were all written '789 and are by W. Sabatier to Governor Wentworth on the subject of the Memorial; a letter with signatures to the agent in London and a letter of R. J. Uniacke, Speaker of the House of the Assembly N. S., regarding the memorial.

The Memorial, itself, is an interesting document and parts of it follow: To the King's Most Excellent Majesty the Lords Spiritual and Temporal and Commons of Great Britain in Parliament Assembled.

The memorial of sundry of His Majesty's loyal American subjects on behalf of themselves and others settled in the province of Nova Scotia who have not hitherto received compensation from the country of government for their losses, either of property or professions, most humbly sheweth:

That your memorialists most of whom have been arms during the late war in support of the British Government and all of them manifested their firm attachment to the crown of Great Britain on a variety of occasions.

That in consequence of their firm and uniform adherence to the cause of their sovereign they have been forced to relinquish property and professions in the colonies all of which were amply competent to their support and take refuge in the Province of Nova Scotia, New Brunswick and Canada where they now reside.

The letter goes on to state that some of the men who are urgently in need of assistance were unable to forward their cases in the time limit which was set by the government and made this special appeal for consideration.

They explained that their wants were not unreasonable they "wanted enough to enable them to cultivate lands restore them and their families to comfortable substance."

A Momentous Time!

THE FATE OF THE WHEAT POOL NOW RESTS ENTIRELY WITH THE POOL MEMBERS.

THE POOL WILL TRIUMPH OVER ALL OBSTACLES IF THE MEMBERSHIP REMAINS STEADFAST AND UNSWAYED BY IDLE RUMORS.

THE STRUGGLE IS NOW AT THE HARDEST PART, AND THE LOYALTY OF EVERY POOL MEMBER IS OF URGENT IMPORTANCE. THE RESULT OF THE ISSUE LIES WITH THE MEMBERSHIP.

THE SAFEST PLACE FOR YOUR WHEAT IS IN THE WHEAT POOL, AND IT SHOULD BE DELIVERED TO POOL ELEVATORS.

AN EASTERN OPINION OF WESTERN FARMERS
(Mall and Empire, Toronto)

"To suggest that the farmer of the west is going into wheat bootlegging by wholesale and thus break up the Pool he created, is to suggest that the western farmer is a welscher and a cheat. The western farmer is not going to violate the sanctity of his contract, break his pledged word, destroy his bond—just because somebody with an axe to grind and not sufficient understanding to put an edge on it, paints of his 1930 crop future a picture more dark and troubled than the facts warrant."

Deliver Pool Wheat to Pool Elevators!

WILL FEED MANY MORE CATTLE PRESENT YEAR

Instead of 800 head of young stock being on feed in the Lethbridge district during the coming season, there will be nearer 2800, according to estimates of those interested in the Red Label beef organization, which operated so successfully in the southern territory during the past feeding season.

With the satisfactory results of the feeding efforts of the past exper-

iment, coupled with lower priced cattle and a good supply of feed, all at reasonable prices, there will be, without doubt, a lot more cattle put in prime killing condition in the Lethbridge district than ever before.—Market Examiner.

Dobbin and Joan. Farmers Wife (to druggist) —"Now be sure and write plain on them bottles which is for the horse and which is for my husband. I don't want nothing to happen to that horse before the spring plowing."
